Agenda:

- 1. Project timeline - Current status of IOs**
- 2. Project timeline - Transnational meetings**

Topic 1: Project timeline - Current status of IOs

IOs:

- IO1: almost successfully completed
- IO2: Organisation and planning is advanced (First ideas are implemented)
- IO3: Organisation and planning is advanced (Materials and games are being planned)
- IO4: starting soon
- IO5: starting soon

Topic 2: Project timeline - *Transnational meetings:*

According to the plan, the third project meeting will take place in November 2021 at the University of Innovation and Economics in Lublin (PL).

- Due to the short time span between Meeting 2 and Meeting 3, the project meeting will rather take place in November.
- WSEI will decide on a date as soon as possible

As the project started in 2020 and all partners have already gained experience in dealing with projects during the Corona pandemic, no risks are expected.

Summarised, we are well in time.
